

**SNOWVENTCO**  
**SNOWPROOF ROOF VENTS**  
THE NEXT GENERATION IN ATTIC VENTILATION

## ***Two Canadian Firms Join Forces to Deliver North America's Most Effective Solar-Powered Attic Ventilation Solution***

ANNOUNCEMENT – September 2021 – INTERNATIONAL SOLAR SOLUTIONS INC. (iSolar) and SNOWVENTCO Limited (SNOWVENTCO) are proud to announce the positioning of iSolar as exclusive eCommerce distributor of both the iSolar 19W-MOD solar powered attic fan and the SNOWVENTCO Roofers' Vent as a tandem super solution. These two notable products complement each other and, when combined, provide the ultimate solution in attic ventilation.

iSolar's 19W-MOD is a best selling modular solar-powered attic fan in several markets in both the USA and Canada. Solar powered attic ventilation has been catching on in recent years. In particular, iSolar's retrofitable 19W-MOD provides several key benefits including its cooling effect on living space temperature, mold and moisture evacuation from attics and prolonging the life of roofing materials and air-conditioners....100% powered by the sun.

INTERNATIONAL SOLAR SOLUTIONS INC. is a company focused on non-traditional solar-powered solutions and is based in Ontario Canada. SNOWVENTCO Limited is a manufacturer of superior commercial grade attic vents and is also based in Ontario, Canada. iSolar is active on Instagram, Facebook and LinkedIn.

SNOWVENTCO's state of the art Roofers' Vent features stainless steel micropore filter technology which prevents 99% of rain, snow, and other particle penetration of an attic in CAT 3 hurricane wind conditions. Hail resistant and vermin proof (hornets and other insects, raccoons). The cost of a Roofer's Vent is a small one-time price to pay to ensure cleaner, dryer air in your attic.

Both of these breakthrough products are patented and have met or exceeded numerous critical independent product performance tests These products can be purchased from iSolar separately or in combination
